

Joint Symposium

ARE YOU AWARE THAT CONCEPT CHANGE IN BREAST CANCER MANAGEMENT AT NEW ERA IS INEVITABLE?

Molecular Oncology in Individualized Breast Cancer Management

17 October 2015, Saturday

Acibadem Atakent Hospital, Halkalı, İstanbul

Koordinators: Bahadır M. Güllüoğlu, Ajlan Atasoy, Cihan Uras

Scientific Secretaries: S. Ata Güler, Deniz Böler

Operational Secretaries: Hazal Oğuz, Şengül Ceylan

09:00-09:05 Opening

1. Session: Healthy Women: Genetic Counselling in High Risk Women

09:05 - 09:20 What is genetic counselling?, who needs?, how is it implemented? (Hülya Yazıcı)

09:20 - 09:40 Genetic tests; to whom with which tests? (Cengiz Yakıcıer)

09:40 – 09:55 BRCA mutations regarding prophylaxis for breast cancer (Cihan Uras)

09:55 - 10:10 BRCA mutations regarding prophylaxis for ovarian cancer (Cem İyiboğurt)

10:10 - 10:25 Discussion / Q&A

10:25 -10:45 Coffee Break

2. Session: Early Stage Cancer: Predictive Molecular Analysis and Clinical Practice

10:45-11:05 Current problems with standard systemic treatments (Gül Başaran)

11:05-11:25 Predictive and prognostic molecular analysis; what and why? (Ş. Burçak Karaca)

11:25-11:45 21-gene profiling (Vahit Özmen)

11:45-12:05 70-gene (+Blueprint) profiling (Gül Başaran)

12:05-12:25 PAM-50 profiling (Cengiz Yakıcıer)

12:25-12:45 Should treatment be different at patients with genetic predisposition? (Gökhan Demir)

12:45-13:00 Discussion / Q&A

13:00-14:00 Lunch

3. Session: Metastatic Cancer: New Generation Markers for Targetted Effective Treatments

14:00-14:20 Role of circulating tumor cells in follow-up of metastatic cancer patients (Başak Oyan Uluç)

14:20-14:50 Targeting treatment by genomic profiling in metastatic breast cancer patients (Istvan Petak)

14:50-15:05 Discussion / Q&A

15:05 Adjourn
